Handwritten note (red):

Sometimes issues can be resolved via force updating the project. For that right click on your project -- maven -- update -- Force update snapshots [✓] check the box.

```
    @Id
    //@GeneratedValue(strategy = GenerationType.IDENTITY)
    private long id;
    private String title;
    private String description;

    //Consructor

    public String getDescription() {
        return description;
    }

    public void setDescription(String description) {
        this.description = description;
    }

    public Courses(long id,String title, String description) {
        super();

        this.id = id;
        this.title = title;
        this.description = description;
    }
```

Handwritten note (red):

In oracle desc is a Key word.

so use full variable here.

Don't use short form here. like desc

else error will prone.
